Presidents Report

This past year has certainly been a long one, but it has also been a year of tremendous talent emerging in our BTG group.

In the fall of 2020 we started putting on virtual One Act Zoom Readings, and put 18 on in total before our "season" ended in May. It was so encouraging to "meet" new people through this artistic endeavor, and to see everything that the amazing people in our community had to offer to the arts. I was truly encouraged by the hard work and determination of our group.

Many years ago

We were very lucky to have the funds already set aside for our new marquee, and to be able to see something come to life at the theatre while we were all away. Thank you so much to Marvin for his extremely hard work getting this project up and running. It's been a long road, and I think I would have given up a few times, but Marvin has seen this through!
